Career Objective

Dynamic and motivated React developer with a strong passion for full stack web development. Eager to learn new technology and apply my expertise in crafting visually stunning and user-friendly interfaces that elevate user experiences. Seeking a challenging opportunity to contribute my skills and drive innovation at a destination where I can thrive and make a meaningful impact.

Skills

Expertise: HTML | CSS | Bootstrap | Tailwind CSS | DaisyUI | JavaScript | ES6 | React | React Router | MongoDB | ExpressJS | Firebase Authentication

Comfortable: NodeJS | Rest API | Material UI | MySQL

Familiar: Redux | Typescript | NextJS

Tools: VS Code | Git | Figma | Netlify | Vercel | Chrome Dev Tools

Soft Skills: Effective Communication | Teamwork and Collaboration | Leadership | Adaptability

Projects

EduMap Chemnitz (Map navigator and routing)

[Live Link](#) | [Client Side Github](#) | [Server Side Github](#)

Technologies Used: React JS | Express.js | React Router | Tailwind CSS | Daisy UI | HTML | CSS | MongoDB | Firebase Authentication etc.

Key Features: Role-based authorization and authentication with different dashboard, map locator and routing from the current location, profile management, location management, add favorite location etc.

HotelHeaven (A hotel booking system)

[Live Link](#) | [Client Side Github](#) | [Server Side Github](#)

Technologies Used: React | TypeScript | Redux & RTK | Tailwind CSS | chartjs | Express | MongoDB | Mongoose etc

Key Features: Our platform provides a seamless experience with streamlined user management, role-specific access controls, easy hotel exploration, interactive blog engagement, secure reservation facilities, efficient booking management, exclusive deals, and intuitive map integration for a comprehensive and user-friendly interface.

PixiePlay (A Car Toys Market place for Kids)

[Live Link](#) | [Client Side Github](#) | [Server Side Github](#)

Technologies Used: React JS | Express.js | React Router | Tailwind CSS | Daisy UI | HTML | CSS | MongoDB | Firebase Authentication etc.

Key Features: The car toy platform, built with React, TailwindCSS, and DaisyUI, features a Firebase-powered registration/login system, an interactive homepage with a navbar, banner, and category sections. Users can explore "All Toys," while the "My Toys" section allows logged-in users to update and delete their products, with a "View Details" button requiring authentication for access.
